

Ontario Election Messages

from the

Ontario Association of Police Services Boards (OAPSB)

Ontarians deserve and expect to stay safe, at a reasonable cost; they deserve high quality policing that is affordable and accountable.

As the Association representing citizen governance of policing in Ontario, we believe the Ontario Government must:

- See the ongoing Future of Policing project through to its conclusion and implementation
- Adopt a whole-of-the-government approach to public safety, implementing policies and legislation that:
 - integrates public safety activities,
 - realigns who-does-what among public safety agencies, and
 - leverages effective, cost-efficient alternative service delivery options
- Strengthen citizen governance of local policing by making it universal across the province, relevant to community needs, and effective in fulfilling a robust governance mandate
